SAVE THE DATE FOR OUR JOINT OUTREACH EVENT

The IASB DP proposes that a company would have to disclose information about its objectives and targets for an acquisition and, in subsequent periods, information about how that acquisition is performing against those targets.

This joint outreach event with a Norwegian orientation will focus on the proposed new disclosures around business combinations, improvement of the impairment test for goodwill as well as the nature of goodwill – whether it is a wasting asset and the underlying components.

The audience will be able to contribute to the discussion through polling questions and Q&A sessions.

Event Format

This event will be a public online webinar with eminent speakers from the NASB, NFF, EFRAG and the IASB, and a Panel of technical experts including the following:

- **Chiara del Prete**, EFRAG TEG Chairwoman
